

- All service should be performed by qualified personnel - power supply to be disconnected prior to installation.
- Connections made must comply with local regulations and the national electrical code. Contact Solera for additional information on installations.

Installation Instructions: CORVUS

1
Make all the necessary power wire connections in the junction box.

2
Mount the LEDs/driver mtg. bracket to the junction box with supplied screws qty (2).

3
Make all the necessary connections in the junction box.

4
Position casted housing/lens assembly over center of the junction box and secure to LEDs/Driver mtg. bracket with supplied screws qty (2).

ADDITIONAL NOTES:
If mounting on walls with rough or uneven surfaces, silicone must be applied around the edges of the housing between wall and the fixture.
